

THE ANCHOR HOUSE

SYMI ISLAND GREECE

WELCOME TO OUR HOUSE

The **Anchor House** is situated on the most beautiful island in Greece, Symi. Designed by the celebrated architect Dimitri Zographos, every corner of the house has heavenly views across the harbour and deep into the bay. We are one of the few homes in Symi with easy access to the sea, situated above Paradise Beach and just a short walk from the main harbour, Gialos.

The house exudes comfort. Five luxurious bedrooms with uninterrupted views of the sea, all with gorgeous ensuite bathrooms. The roof terrace is the perfect place to spend the twilight hours of the day, the entire panorama of the harbour and the Aegean stretching into the distance. There are multiple terraces and vistas, all with comfortable seating.

We named the house after the anchor because it is designed to work for families and friends reuniting. The sheer beauty of the house and environment will anchor you and give you the most special memories of your year. We look forward to welcoming you!
